

Hackathon Submission Checklist

Agentic AI Track - Deliverables & Evaluation Criteria

Round 1: Concept Note

Deadline: 17 April

- ☐ Define Problem Understanding and Objectives
- ☐ Draft Proposed Agentic System Design & Architecture
- ☐ Finalize Technology Stack
- ☐ Create Feasibility and Execution Plan
- ☐ Self-Check: Problem Clarity & Approach
- ☐ Self-Check: Business Impact & Tradeoff considerations
- ☐ Self-Check: Data Quality and relevance assessment

Round 2: Project Artifacts & Technical Design

Deadline: 15 May

- ☐ Complete Preliminary Solution Design
- ☐ Draft Proposed Solution Architecture
- ☐ Develop Context Diagram
- ☐ Create Low-Level Design (LLD)
- ☐ Define Data Sources and Data Engineering approach
- ☐ Design Data Model (Entity Relationship Diagram)
- ☐ Map Data Flow Diagram (DFD)
- ☐ Develop Sequence and State Transition Diagrams
- ☐ List Open-source tools and libraries to be used
- ☐ Self-Check: Robustness of Agentic AI design
- ☐ Self-Check: Security, Scalability, and Ethical AI considerations

Round 3: Production Ready Solution

Deadline: 26 June

- ☐ Finalize Code Repository (Git)
- ☐ Update Solution Design Document
- ☐ Document Key Results (Accuracy, Precision, F1 Score)
- ☐ Complete Solution Documentation
- ☐ Implement Agent Orchestration and Workflow
- ☐ Self-Check: Code quality and implementation rigor
- ☐ Self-Check: Explainability and Ethical AI compliance

Refer to the technical design document for detailed orchestration and compliance requirements.
